DETAILED ACTION

Claims 1, 2, 5-12 and 15-20 are allowable.

The restriction requirement among Species 1-4 as set forth in the Office action mailed on 10/25/06, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim. Claims 6, 8, 10, 16, 18 and 20 as directed to Species 1, 3 and 4 are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim (Generic claims 1 and 11).

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a speaker system for generating a pseudo-spherical wave. Independent claims 1 and 11 identify the uniquely distinct feature of a main speaker and a plurality of subordinate speakers wherein the main speaker and subordinate speakers are connected in parallel by two signal lines

Art Unit: 2615

and wherein the speakers are vibrated within the piston frequency range and in phase with each other and the propagation speed of a sound wave produced by the vibration of the subordinate speakers is less than the propagation speed of the main speaker thereby producing a pseudo-spherical sound wave in combination with all the disclosed limitations of claims 1 and 11. The prior art fails to anticipate or render the independent claims obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Ensey whose telephone number is 571-272-7496. The examiner can normally be reached on Monday - Friday 6:00 AM - 2:30 PM.
